

“Barrie Jones” OUTREACH

Visits to the George Abell Observatory, telescopes and meteorite

Please complete the form below and email it to: sheridan@ouastro.co.uk

Name of group:	
Name of organiser:	
Email address:	
Mobile number:	
Age range of the group:	
Number of children:	
Number of adults:	
List of possible dates for the visit:	
Arrival time: <i>Please be aware of sunset time when suggesting arrival time</i>	

Please note that we are unable to organise visits on the 1st Tuesday of the month. Fridays are also more difficult to organise but not impossible.

Tours are suitable for those aged 9 years and older. Experience has shown us that those under 9 years old are unable to benefit fully from the visit.

*We can host a maximum of 30 people for a 90 minute visit or 40 people for a 2 hour visit. This number **includes** adults. For safety reasons we are unable to accommodate more than 10 people in the observatory dome at any one time hence the maximum numbers and groups will be subdivided to facilitate that. We will also need one adult per group please.*

I’m afraid that we cannot extend the visit for longer than these times as guides will be booked for the slot.

Finally, we cannot guarantee that the sky will be clear (or even dark). Nevertheless, all will be able to see the Alan Cooper 16 inch Meade telescope in action.

Bookings will be confirmed by email. Please note that guides are volunteers and booked according to the form. Changes to numbers or times must be made at least 2 weeks prior to your visit.
