

The Open University Astronomy Club

“Barrie Jones” OUTREACH

Visits to the George Abell Observatory, telescopes and meteorite

Please complete the form below and email it to: sheridan@ouastro.co.uk

Name of group:	
Name of organiser:	
Email address:	
Mobile number:	
Age range of the group:	
Number of children:	
Number of adults:	
List of possible dates for the visit:	
Arrival time: <i>Please be aware of sunset time when suggesting arrival time</i>	

Please note that Tuesdays and Fridays are more difficult to organise but not impossible.

Visits will end 90 minutes after the arrival time stated above.

*The maximum number of people we can accommodate per visit is 30 **including** adults. Young people they will be given priority entry to the dome.*

Please do not assume that you can stay later than your allotted time slot as guides will be booked for the slot.

For safety reasons we are unable to accommodate more than 10 people in the observatory dome at any one time, so the group will be divided to facilitate that.

Finally, we cannot guarantee that the sky will be clear (or even dark). Nevertheless, all will be able to see the Alan Cooper 16 inch Meade telescope in action.

Bookings will be confirmed by email. Please note that guides are volunteers and booked according to the form. Changes to numbers or times must be made at least 2 weeks prior to your visit.
